

INDICATIONS.
For Tennessee and the Ohio valley, weather generally fair, with a few showers, but no rain, and a slight increase in temperature.

Our French fellow-citizens have called a meeting to make arrangements to celebrate the 14th of July.

A French company with a capital of ten million dollars is being formed in Paris to develop the mining resources of Canada.

An Albany dispatch announces the withdrawal of Depeur from the Senatorial contest. So far as known there was no female mixed up with his retirement.

The missing steamer Vandalia was yesterday towed to Stonaway, a fishing port in the Hebrides, and the female crew in a prison.

Stonewall is making victims, as is usual about the time of the Fourth of July. The same South, the cool North comes in the warm visitation.

The Italian, German and Spanish consuls are leaving Tunis without expectation of return. It is feared to raise up trouble in Europe once more. If so, the republic is pressing a bad policy.

Tunus has contributed to the fund for collection of a testimonial to Mrs. Garfield. It will require five days to make up the \$250,000 originally named as the amount desired.

"LAUDABLE PUS" is the latest doctor's jargon for a healthy discharge from a suppurating wound. A discharge of good, healthy pus into the vocabulary of some of our learned medical might have a good effect.

Calculators find that the average, fertile, useful, condition of crops, and so on, point to a probable crop of cotton the coming season of nearly seven million bales, and the estimate cannot reasonably be called in question.

The better news as to the condition of the President brightens every face and lightens every heart; people congratulate each other as on an escape from some calamity in their own family, and every citizen rejoices in the hope that the country has escaped a terrible misfortune.

GRANT thinks he may some day want to go back to the joys of country life; the thought is a sensible one. In his reputation and peace of mind he would be a gainer. Cincinnati at his plow will stand better with his fellow-citizens than if he might in political battles.

FEARS are entertained of what may be the result of a failure of the monetary currency in Paris; it would be followed by a decline in silver, the consequence of which would be a serious injury to trade in the East Indies and elsewhere, and our cotton market would suffer.

FORNMASTER-GENERAL JAMES exceedingly declares he has saved the Government \$50,000 by discontinuing one Starvation route. He has not figured up the loss to the national community, to say nothing of the inconvenience of the public, which has followed his questionable economy.

GRASS without victims is a cheap way of amusing one's self, and there seems to be a disposition just now to indulge in that sort of enjoyment. Loving two or three pounds of grass every day is making an enormous toward that expense which when the thermometer is among the anemias-sitting out on one's bare bones to cool.

THE New York Public acknowledges that the "Mississippi river route for goods" is "a thing of importance and power." The lyceum, a shipment to New Orleans of 30,000 bushels of wheat, "best direct from St. Paul to Glasgow, in a land, at sixteen and one-fourth cents a bushel, is a hard fact that is opening many unwilling eyes."

HON. E. W. THOMPSON, ex-Secretary of the Navy, has been elected President of the Baltimore, Cincinnati and Western Cattle, Railroad company, an organization to build a new railroad from Baltimore to Cincinnati over a route projected by Charles E. Rice, by way of the south branch of the Potomac, Elkhorn, the Great Kanawha river and the Ohio.

The English settlement of Rugby, in this State, excites considerable attention. It is evidently would be the better for one easily-supplied element of success, that is for the importation of some heavy, blue-black-frosted English farm hands and their kindred, dirty-manning wiles along with them. The brains at Rugby require an admixture of muscle.

ARKANSAS would profit infinitely by adopting and vigorously carrying out the system of prohibiting the carrying of hidden weapons which has proved so great a blessing to us in Memphis. If Arkansas would imitate the example of the State of Tennessee, it might find "strangers in a strange land" are easily aroused, and violence and lynching are fatal to immigration.

EVERY one is making by which traveling between New York and San Francisco will take five and a half days instead of six days, three hours, as at present. The world begins to seem a small place, we can so quickly run over it. To pass completely round it, as it is by rail, would be an enormous task, but it is a task that is allowed for man's soul to soar.

SARAH B. ANTHONY claims that the woman movement has been successful. School suffrage has been gained in twelve States; law, theology and medicine are thrown open to women; colleges are open to women; there are fifty women lawyers; women can practice in the United States Supreme Court; women preach among the Methodists and the Universalists; women are engaged in many trades—managing stores, and make good clerks and bookkeepers. Thirty years ago women could only sew, cook, teach, nurse the baby and manage their husbands.

THERE is nothing brighter, purer or nobler in the earth than a good woman. Her eyes glow with the heart of her husband, and she is known in the gates of heaven. Her husband is a good man, and she is a good woman. Her husband is a good man, and she is a good woman. Her husband is a good man, and she is a good woman.

BETTER THAN EVER.

The Prospects of a Speedy Recovery for the President are Increasing Hourly.

That "Scary-Looking 'Landable Pus'" Just What the Doctors Expected at This Time.

The tenor of the news received from Washington last night inspires high hopes of the speedy recovery of the President. It is the opinion of the physicians in charge of the case that the turning point has been passed, and that the President is now in a position to receive the treatment which will restore him to health. The bulletins received are as follows:

8 P.M.—The President's condition continues favorable. He has passed a very comfortable afternoon, and has taken more nourishment than on the previous days. Pulse, 108; temperature, 101.3; respiration, 24. The conditions continue so favorable that there will be no further bulletin until tomorrow morning.

10 P.M.—Dr. Beaman, who is a Western Associated Press reporter at 10 o'clock that the President's condition is more hopeful than ever, that all symptoms are favorable and surgeons' hopes increase every hour. He said that the rise in the pulse and temperature to-day was due to causes thoroughly understood, and does not indicate anything unfavorable, that when the bullet passed everything is dead matter and must slough off. This sloughing process has commenced most favorably, as is shown from the character of the pus discharged from the wound.

One great fear apprehended was that the sloughing might cause a hemorrhage by rupturing a blood vessel, but Dr. Beaman says this danger is now, in a great measure, passed. Colonel Rockwell said to-night that about 6 o'clock this evening the President awakened from a short sleep and inquired, "Where's Billy?" Dr. Bliss called to him, and the President said to him: "Doctor, I feel better; you better tell me in my little bed." The President would not, but his wife, and he wanted it dressed for the night. He continues his good humor and cheerfulness, and manifests frequently. One good sign, however, is that he gets a little cross sometimes. The doctors and attendants say this is indeed favorable.

11 P.M.—Although the pulse and temperature of the President have been rather higher to-day than yesterday, on account of the process of absorption, it is not a sign of anything unfavorable, but a sign of recovery. The President has been rather restless to-day, and has had a very comfortable day. There has been no return of acidity of the stomach, caused yesterday, it is thought, by oatmeal gruel which he ate. He has not suffered from indigestion, but he has had a very comfortable day. He has been rather restless to-day, and has had a very comfortable day. He has been rather restless to-day, and has had a very comfortable day.

FEARS are entertained of what may be the result of a failure of the monetary currency in Paris; it would be followed by a decline in silver, the consequence of which would be a serious injury to trade in the East Indies and elsewhere, and our cotton market would suffer.
